SUMMARY

U.S. exports of unmanufactured tobacco during March 1986 were 22,638 metric tons valued at $132 million -- up 3.5 percent in quantity, but down 9.5 percent in value from March 1985. For the first quarter, total leaf exports are 47,466 tons, valued at $286 million, off 21 percent in volume and 26 percent in value from 1985. Flue-cured exports totaled only 5,270 tons for March, a drop of 27 percent from the same period in 1985. For January-March, flue-cured shipments of 19,692 tons valued at $124 million, were off 40 percent in value and 41 percent in volume from 1985 levels. Burley exports in March totaled 11,530 tons, an increase of 3 percent from the same month in 1985. For 1986's first quarter, however, burley exports were down 11.5 percent in quantity, at 15,849 tons. Value declined 23 percent to $103 million. For March 1986, cigarette exports were 5.0 billion pieces valued at $102 million, off 11 percent from March 1985.

Meanwhile, U.S. imports of unmanufactured tobacco for consumption were 18,340 tons in March 1986, up 48 percent from a year earlier. The duty-paid value of imports was $54 million, a gain of 36 percent from the March 1985 level. For the first quarter, import quantity was down 3 percent to 45,261 tons, while value was $136 million, off 2 percent. General imports (actual arrivals) of unmanufactured tobacco during March 1986 totaled 17,096 tons valued at $49.6 million. Volume rose 114 percent vis-a-vis March 1985. For the first quarter, general imports jumped 33 percent in volume, to 61,055 tons. The value was also up, by 66 percent. Oriental tobacco is the largest component of the general arrivals, with 38,961 tons coming during January-March.

Spain and Portugal entered the European Community (EC) on January 1, 1986, which will have far-reaching implications on the domestic tobacco industries in the two countries. In order to align with EC policies, Spain has increased the price of certain domestic tobacco products. The increase, an average of 10 percent, is 1.9 percent above the inflation rate in 1985.

Swiss cigarette production declined 9 percent in 1985, to 23,150 million pieces, mainly because of lower exports.

Japan Tobacco Incorporated announced that total sales of domestic and imported cigarettes in fiscal 1985 (April 1985 to March 1986) were 310.7 billion, down 0.6 percent from last year. Sales of domestic cigarettes decreased 0.9 percent, while imports increased 15 percent from a small base.

The 1986 tobacco crop in Zimbabwe is estimated at 117,022 tons, 8 percent above last year's revised estimate of 108,711 tons.

On May 1, 1986, a major British cigarette manufacturer announced it will close down a cigarette factory in Northern Ireland on August 15.

Imports of cigarettes into Denmark increased by more than 50 percent in 1985 to 260 million pieces. Major suppliers were West Germany and the Netherlands.

In Canada, the Ontario Flue-Cured Tobacco Growers' Marketing Board market had been open 63 days, as of May 2, 1986, with a total of 142 million pounds sold. The average price was Can$1.25 (US$0.91), up slightly from last month's report of Can$1.23.

World Developments Affecting Tobacco Demand

Imports of cigarettes into Denmark increased by over 50 percent in 1985 to 260 million pieces. Major suppliers were West Germany and the Netherlands. All imports came from the EC. With a zero tariff level for cigarettes coming from the EC, and a 90-percent level assessed on arrivals from other countries, it is difficult for non-EC countries to compete effectively.

According to Japan Tobacco Incorporated, the only cigarette manufacturer in Japan, and formerly the government monopoly, total sales of domestic and imported cigarettes in fiscal 1985 (April 1985 to March 1986) were 310.7 billion, down 0.6 percent from last year. Sales of domestic cigarettes slipped 0.9 percent, while imports rose 15 percent from a small base. This gain is about the same as last year's market share increase for imported cigarettes. Below are the quantities for domestic, imported, and total cigarette sales for JFY 1984 and 1985:

	JFY1984	JFY1985	Percent change
Domestic sales	306.0	303.2	-0.9
Imported sales	6.5	7.5	+15.0
Total	312.6	310.7	-0.6

Under an order published March 20, 1986, the government of Spain has increased the price of certain domestic tobacco products. The increase, an average of 10 percent, is 1.9 percent above the inflation rate in 1985. Increases for domestically produced dark cigarettes rose 13-15 percent, while American-type or blond cigarettes went up only 8.8 percent on average. Imported products did not increase. The new price structure is expected to have a moderately negative effect on the overall consumption of domestically produced cigarettes. The price increase will accelerate the trend toward American-style cigarettes. Likewise, imported cigarettes will likely increase in market share. These changes should help raise the overall demand in Spain for American leaf, whether in the form of imported cigarettes, or in domestically produced American-style cigarettes. Spain is the third largest customer of U.S. leaf, accounting for $135 million in 1985.

BEST COPY AVAILABLE

Swiss cigarette production declined 9 percent in 1985, to 23,150 million pieces, due mainly to lower exports. Last year, exports dropped 25 percent to 6,950 million pieces, compared to 16,000 million pieces just a few years ago. This reduction results mainly from a change in production strategy by the large multinational cigarette producers. They are increasing domestic production in countries where they have subsidiaries, therefore, reducing the demand for cigarettes from countries such as Switzerland.

World Developments Affecting Tobacco Supply

In Canada, the Ontario Flue-Cured Tobacco Growers' Marketing Board market had been open 63 days, as of May 2, 1986, with a total of 142 million pounds sold. The average price was Can$1.25 (US$0.91), up slightly from last month's report of Can$1.23. The price uptrend since the opening market is expected to continue. The higher quality leaf is again showing higher average prices than last month. This follows the upward trend in prices noticed in last year's auction market. However, prices for this year's market are much lower than the Can$1.46 (US$1.05) average on day 63 of last year's market. Given the lowering in the U.S. price, this is to be expected. Due to the delay in this year's market opening, daily sales have been increased when compared to last year.

On April 14, 1986, the Malawi Tobacco Control Commission opened the auction market in Limbe. As of April 24, 2,885 tons had been sold, at an average value of 2.87 kwacha per kilogram (US$1.67/kg.), compared to a total of 3,199 tons valued at 2.01 kwacha per kilogram (US$1.25/kg.) last year. Flue-cured tobacco sold at 2.76 kwacha per kilogram, (US$1.60/kg.) for a total of 1,448 tons, versus 1,626 tons sold last year, valued at 1.89 kwacha per kilogram (US$1.17/kg.). Burley auction sales totaled 1,438 tons, valued at 2.98 kwacha per kilogram (US$1.73/kg.). Last year, 1,572 tons of burley were sold at 2.13 kwacha per kilogram (US$1.32/kg.).

On May 1, 1986, a major British cigarette manufacturer announced it will close a cigarette factory in Northern Ireland on August 15. The plant, which produces for the domestic market, employs 800 people. The rise in "generic" imports into the United Kingdom, as well as the recent hefty excise tax increase are being given as the reasons for the closing.

According to the U.S. agricultural counselor in Pretoria, the 1986 tobacco crop in Zimbabwe is estimated at 117,022 tons, 8 percent above last year's revised estimate of 108,711 tons. The grower-imposed controls introduced in 1981 to bolster prices continue to keep production at marketable levels. This season's crop benefited from hot, sunny weather in the latter stages of the growing season which more than compensated for wet, overcast weather during planting time.

U.S. Tobacco Developments

The Maryland tobacco auction markets closed on May 1, 1986, after seven weeks of sales. Net sales totaled 25.3 million pounds and averaged $1.32 per pound. Last season, 28.6 million pounds sold for an average price of $1.40 per pound. Sales last year included some carryover from the 1983 weather damaged crop. Informed sources point to both quality and demand as factors contributing to the lower 1986 auction prices.

Exports of unmanufactured tobacco during March 1986 totaled 22,638 tons, valued at $132 million. In comparison with March 1985, the quantity exported rose approximately 3.5 percent while value fell almost 10 percent. Flue-cured tobacco exports accounted for only 23 percent of the monthly total while burley tobacco exports represented 51 percent. During March, leading leaf markets were Thailand (5,498 tons), followed by Japan (3,885 tons), the Federal Republic of Germany (3,236 tons), the Netherlands (1,321 tons), and France (918 tons). Total exports for the January-March 1986 period were 47,666 tons, valued at $286 million, down from 1985 by 21 and 26 percent, respectively.

March flue-cured exports totaled 5,270 tons, down 27 percent from March 1985. Leading flue-cured markets were Thailand with 2,382 tons, Australia with 537 tons, and the Federal Republic of Germany with 378 tons. Flue-cured exports during the 1st-quarter of 1986 totaled 19,692 tons, valued at $124 million. In comparison, flue-cured exports during the first quarter 1985 were 32,941 tons, valued at $211.2 million.

Burley exports during March 1986 totaled 11,530 tons, up 3 percent from the 1985 level of 11,157 tons. Major markets included Japan (3,271 tons), Thailand (3,116 tons), the Federal Republic of Germany (2,407 tons), and the Netherlands (1,009 tons). Burley exports for the first quarter of 1986 were 15,849 tons valued at $103 million, down from the 1985 first quarter's level of 17,920 tons valued at $135 million.

March 1986 exports of manufactured tobacco products totaled $129.4 million, u 9 percent from the March 1985 level of $119 million. During the first quarter of 1986, manufactured tobacco exports totaled $349 million, up slightly from the same 1985 quarter of $346 million. The strong export pace in the first quarter for manufactured product was primarily the result of sharp increased shipments of smoking tobacco. For the January-March 1986 period, smoking tobacco exports, all types, totaled $52.7 million, compared with $10 million for the same 1985 period. Cigarette shipments during March 1986 were 5.04 billion pieces valued at $102.7 million, down 11 percent in quantity and 10 percent in value from a year ago. Leading markets were Belgium/Luxembourg (1.23 billion pieces), Saudi Arabia (655 million pieces), Hong Kong (516 million pieces), and Japan (498 million pieces).

Unmanufactured tobacco imports for consumption (duty paid) during March 1986 were 18,340 tons, valued at $54 million, with volume increasing 48 percent from a year ago. Leading suppliers were Turkey (12,732 tons), Brazil (7,677 tons), Canada (3,060 tons), Greece (2,986 tons), Republic of Korea (2,118 tons), and Argentina (2,055 tons). Despite the marked rise in duty-paid imports in March 1986, first quarter 1986 unmanufactured imports fell slightly from the same period in 1985. During this period, duty-paid imports totaled 45,261 tons for a value of $136 million, down from the 1985 level of 46,699 tons valued at $139 million.

U.S. general imports (actual arrivals) of unmanufactured tobacco during March 1986 totaled 17,096 tons, valued at $49.6 million, more than twice the quantity and value levels of March 1985. Oriental leaf arrivals for the month totaled 8,676 tons, valued at $31 million. Leading sources of general imports were Turkey (6,858 tons), Canada (2,716 tons), and Greece (1,739 tons). The sharp increase in general imports during March 1986 was consistent with first quarter 1986 general import levels which were considerably greater than

Special Report:
Spanish Accession to the EC And Its Effects on the Spanish Tobacco Industry

Tax Harmonization

Under the new taxation system adopted by Spain after accession into the EC, the Spanish Government will have four years to equalize taxes for dark and blond cigarettes. As a result, prices of dark cigarettes will experience a dramatic increase which will bring about a sharp shift in sales toward American-style blond cigarettes. In line with this policy and efforts to harmonize domestic prices with those elsewhere in the EC, the Spanish Government recently increased retail prices on cigarettes and other tobacco products. While prices for dark-type cigarettes increased from 13 to 15 percent, those of American-blend cigarettes increased only 8.8 percent on average, just slightly above the inflation rate.

Status of Peninsular Monopoly

Spanish tobacco production, heretofore a privilege contracted by the State through the National Tobacco Cultivation and Fermentation Service (SNCFT), an agency of the Ministry of Agriculture, will now be free. However, until at least 1989 (the end of the Government's tobacco production restructuring program) existing growing contracts will continue to be administered by a private company, CETARSA, in which the Government, Tabacalera, S.A., and possibly other companies participate. CETARSA will buy the entire crop and presumably sell it to Tabacalera, S. A., which under Act No. 38 of November 22, 1985, (State Gazette No. 286), will continue to hold the manufacturing monopoly in the Peninsula and the Balearic Islands. Unless the quality of domestic tobaccos is improved, Tabacalera, S.A. may not want to buy the entire crop. In this case, CETARSA will have to export the balance or place this tobacco under a Government loan program.

Under the provisions of Act No. 38, the Peninsular Tobacco Monopoly will continue to be the sole importer of leaf tobacco into the Peninsular and the Balearic Islands. The Monopoly will also continue to have the exclusive right to import and distribute cigarettes and other tobacco products originating in EC countries, for at least six years following accession. For cigarettes and other tobacco products imported from third countries (the U.S. for example) the Monopoly officially no longer has the exclusive rights of importation. However, it retains both the retailing monopoly and the only distribution system that exists in the country. As a result, it would be very difficult for anybody other than Tabacalera, S.A. to import tobacco products. As a result of accession, the Monopoly will now have to pay import duties on imports of leaf and tobacco products.

Imports of leaf tobacco and tobacco products into the Canary Islands continue unrestricted since the islands do not form part of the customs territory of the EC. Tobacco products originating in the islands and exported to Spain were exempted from EC customs duties effective January 1, 1986. Canary Islands tobacco products exported to other EC countries are also exempted from customs duties within the limits of tariff quotas allocated by the EC Council on the basis of the three best of the last five years for which statistics are available.

BEST COPY AVAILABLE

Current Tobacco Common Agricultural Policy (CAP) Rules

As indicated earlier, Spanish tobacco production is, not strictly regulated by the Government as had been the case in the past. However, since there will continue to be just one buyer, Tabacalera, S.A., and preparation and storage (redrying and fermenting mainly) facilities are all owned by the Government's Tobacco Cultivation Service (SNCFT), which will now become a private company. Growers will be somewhat constrained in deciding how much tobacco to produce. The five-year (1985-89) program for restructuring tobacco production will continue in effect, although some of the provisions and subsidies contemplated by the program appear to be in conflict with EC policies. The EC Council only authorized Spain to maintain its subsidies for fertilizers and agricultural insurance until December 31, 1990. The reduced subsidies for diesel fuel will begin in 1987.

Target prices for the 1986/87 marketing year will be estabished by Spain while intervention prices will be fixed by the EC. Neither one of these two prices have been as yet established. Therefore, the CAP will be effective for marketing year 1986/87, including granting of subsidies as established in EC's Regulation No. 727/70.

Portuguese Accession to the EC And Its Effects on the Portuguese Tobacco Industry

Up to accession, tobacco in Portugal has been a state-run industry. The tobacco sector will have seven years to completely adjust to EC rules. Production and trade policies have been formulated and implemented by the public corporation Tabaqueira, which has been the sole buyer, importer, and processor of tobacco leaf. With EC accession, Tabaqueira relinquished its exclusive right as sole buyer and processor of domestically produced tobacco. It will, however, maintain its status as sole importer of leaf tobacco, and manufacturer of cigarettes, cigars, and other tobacco products.

Beginning this season, the EC is responsible for setting tobacco prices. The intervention price will be 85 percent of the target price, which varies by type. To help move domestic leaf, which is priced higher than world market levels, the EC will pay a subsidy to buyers of the domestic crop. Below are the minimum guaranteed prices paid to Portuguese tobacco growers:

	1983	1984	1985	1986
Flue-cured, escudos/kg.	277.00	353.55	433.10	528.90
Flue-cured, US$/kg. 1/	$2.50	$2.42	$2.54	$3.72
Burley, escudos/kg.	219.00	271.50	337.00	392.60
Burley, US$/kg. 1/	$1.97	$1.85	$1.97	$2.76

1/ Exchange rates used: US$1 = 110.78 escudos in 1983, 146.39 in in 1984, 170.395 in 1985, and 142 for 1986.

BEST COPY AVAILABLE

Tariff Changes

Prior to EC accession, the import duty on all leaf tobacco from all countries was 51.35 escudos per kilogram. In 1986, the duty on third-country products under tariff heading 24.01A [Flue-cured Virginia type and light air-cured Burley type tobacco (including Burley hybrids); light air-cured Maryland type and fire-cured tobacco] has become 23 percent ad valorem, but no less than 39.135 escudos per kilogram, and no more than 41.93 escudos per kilogram. The duty on other leaf tobacco (heading 24.01B) has become 14 percent ad valorem, but no less than 39.135 escudos per kilogram and no more than 91.837 escudos per kilogram. On imports from the EC in 1986, the maximum duty is 41.93 escudos per kilogram for tariff heading 24.01A, and 46.22 escudos per kilogram for tariff heading 24.01B, with the caveat that the duty on EC products can never be higher than the duty on third-country products. The duty on all imports from the EC will be 41.08 escudos per kilogram in 1987, 33.38 in 1988, and 25.68 in 1989. There will be further reductions in ensuing years reaching zero duty in 1993.

Special Report:
European Community Tobacco Trade, 1985

European Community (EC) tobacco imports from all countries (including EC partner countries) in 1985 totaled 531,024 metric tons, up 1.4 percent from the 523,851 tons imported in 1984. Reasons for the increase include expanding demand due to an improvement in the European economy, lower stock levels, and lower prices from some countries. The United States was the leading supplier of unmanufactured tobacco to the EC, with 89,134 tons, followed by Brazil (86,828 tons), Zimbabwe (47,498 tons) and Malawi (39,392 tons). Value of tobacco imported was 2.29 billion European Currency Units (ECUs), up 9.6 percent from last year's 2.09 billion ECUs.

EC exports to all countries (including EC partner countries) totaled 220,488 tons, down 7.5 percent from 1984's 238,287 tons. Value of exports was also down by 9 percent, to 491,995 ECUs from 542,011 in 1984. Greece was the largest exporter of the member states, with 86,750 tons, followed by Italy with 85,005. The largest customers of EC tobacco were the Federal Republic of Germany (28,517 tons), Bulgaria (25,410 tons), the United States (22,966 tons) and the Netherlands (17,283 tons).

Flue-cured tobacco was the largest single component of EC tobacco imports in 1985, totalling 262,161 tons, at a value of 1.31 billion ECUs. Major sources of flue-cured tobacco were Brazil (64,177 tons), the United States (52,986 tons), Zimbabwe (36,474 tons), India (15,373 tons) and Malawi (14,502 tons). By value, however, the United States was the largest source, at 453 million ECUs, followed by Brazil (272 million ECUs), Zimbabwe (148 million ECUs), Malawi (60 million ECUs) and India (52 million ECUs). The EC exported only 20,168 tons of flue-cured in 1985, mostly to other member states.

Burley tobacco imports in 1985 into the EC totaled 62,056 tons, at a value of 362 million ECUs. The United States was the largest source of burley tobacco, with 21,027 tons valued at 195 million ECUs, followed by Malawi (10,940 tons valued at 41 million ECUs) Italy (9,400 tons valued at 28 million ECUs), and South Korea (6,202 tons valued at 32 million ECUs). In contrast, the EC exported 31,779 tons of burley, with over half going to other member states. Italy exported the lion's share, at 22,510 tons, followed by Greece with 4,130 tons.

Oriental tobacco imports into the EC were 49,283 tons, at a value of 180 million ECUs. Turkey was the largest source, with 21,162 tons, followed by Greece (15,492 tons) and Bulgaria (4,862 tons). EC exports of oriental tobacco totaled 30,981 tons, valued at 44 million ECUs. Bulgaria was the largest customer, buying 12,829 tons, followed by Poland (2,634 tons) the Federal Republic of Germany (1,760 tons) and the United States (1,488 tons).

Principal Importing Countries

The Federal Republic of Germany was the largest importer of the member states, importing 146,314 tons, up 6 percent from last year's 138,128 tons. In ECU terms, value of imports was also up, by 13 percent, to 672 million ECUs, from last year's 593 million. The United States was the largest source, with 30,866 tons, followed by Brazil (20,187 tons), Italy (14,668 tons), Turkey (10,147 tons), and Malawi (9,674 tons). Flue-cured tobacco was the largest single component of Germany's leaf imports, totaling 65,856 tons. The United

BEST COPY AVAILABLE

States was the largest source of flue-cured, with 19,168 tons, followed by Brazil (14,707 tons), Zimbabwe (4,768 tons) and Thailand (4,702 tons). With burley, Germany imported 29,671 tons in 1985. The United States was the largest source, with 9,125 tons, followed by Malawi (5,855 tons), Italy (5,253 tons) and South Korea (3,943 tons). Oriental tobacco imports totaled 21,740 tons in 1985, with Turkey the largest source, at 9,638 tons. Greece was next, with 7,733 tons.

The United Kingdom imported 120,509 tons of unmanufactured tobacco in 1985, down by 19.5 percent from last year's 149,651 tons. Brazil was the largest source, with 26,736 tons, followed by Zimbabwe (22,442 tons) India (12,937 tons), and the United States (12,473 tons). Flue-cured tobacco was the largest type imported, totalling 94,582 tons. Brazil was the largest source, with 23,420 tons, followed by Zimbabwe (16,482 tons), India (11,552 tons) and the United States (10,434 tons). Burley imports into the United Kingdom totalled only 3,213 tons, and oriental tobacco imports were only 572 tons.

The Netherlands was the third largest importer in the EC of raw leaf in 1985, at 90,347 tons, up 10 percent from last year's 82,326 tons. The United States was the largest source, with 14,705 tons, followed by Brazil (13,192 tons), Malawi (10,647 tons), and Zimbabwe (8,514 tons). Flue-cured tobacco accounted for 41,167 tons of Dutch tobacco imports. Brazil was the largest source of flue-cured, with 9,537 tons, followed by Zimbabwe (7,744 tons) and the United States (6,709 tons). Burley imports were 11,406 tons, with the United States as the largest source at 3,493 tons, followed by Italy, with 2,359 tons. Oriental imports totaled 6,796 tons in 1985 for the Netherlands. Greece was the largest origin (3,383 tons) followed by Turkey (2,161 tons).

French tobacco imports in 1985 totaled 64,796 tons, down less than 1 percent from the 65,081 imported in 1984. Brazil was the largest source of French tobacco imports, at 9,123 tons, followed by the United Kingdom (5,367 tons), Turkey (5,361 tons) and several other sources. Dark type tobacco was the largest kind entering France, totalling 16,509 tons. Brazil was the largest source (5,200 tons), followed by Paraguay (3,729 tons), and Argentina (3,396 tons). Oriental tobacco was the next largest type imported by France, totalling 9,747 tons. Turkey was the largest source, with 5,096, followed by Bulgaria (2,581 tons) and Romania (1,959 tons).

Principal Exporting Countries

Greece was the largest tobacco exporter in the EC, exporting 86,570 tons valued at 197 million ECUs. This was down 1 percent in quantity and 14 percent in value from the 87,825 tons valued at 231 million ECUs shipped in 1984. The United States was the biggest customer, taking 12,781 tons, followed by Bulgaria (10,892 tons), the Soviet Union (10,057 tons) and the Federal Republic of Germany (7,956 tons).

Italy was a close second in total unmanufactured tobacco exports in the EC, with 85,005 tons, valued at 120 million ECUs. This is down sharply, some 12 percent in volume and 10 percent in value from last year's 96,787 tons exported, valued at 134 million ECUs. Burley tobacco was the largest single type exported by Italy, with some 22,510 tons shipped in 1985. The largest customer was the Federal Republic of Germany, with 5,394 tons, followed by Bulgaria (2,697 tons). Oriental was the next largest type, with a total of 17,230 tons. Bulgaria was the largest customer, with 10,999 tons, followed by Poland (1,664 tons) and Malta (1,353 tons).

Do you need information about

- Overseas markets and buying trends?
- New competitors and products?
- Trade policy developments?
- Overseas promotional activities?

Then **Foreign Agriculture** — USDA's fact-filled monthly agricultural trade magazine — is for you. Based on official USDA data available nowhere else, **Foreign Agriculture** articles are clear and crisp, written to provide the export information you need, in a concise and extremely readable form.

Special information is found in **Foreign Agriculture's** telegraphed, targeted news departments: Fact File, Country Briefs, Trade Updates and Marketing News. And its tables and graphs will give you an immediate grasp of what's going on overseas.

In addition, periodic special issues—such as the one devoted entirely to value-added exports—will give you a wide range of detailed information about overseas markets.

If you use agricultural facts and figures in your business, you need **Foreign Agriculture.**

Subscribe today! Just $16.00 ($20.00 for foreign delivery) brings you Foreign Agriculture for 12 full months.

FAS Circulars: Market Information For Agricultural Exporters

As an agricultural exporter, you need timely, reliable information on changing consumer preferences, needs of foreign buyers, and the supply and demand situation in countries around the world.

The Foreign Agricultural Service can provide that information in its commodity circulars.

World agricultural information and updates on special FAS export services for the food and agricultural trade all are available in these periodic circulars.

For a sample copy of these reports—which can supply you with the information you need to make sound business decisions—check the box indicated, fill out the address form and mail it today.

To subscribe: Indicate which publications you want. Send a check for the total amount payable to the Foreign Agricultural Service. Only checks on U.S. banks, cashier's checks, or international money orders will be accepted. NO REFUNDS CAN BE MADE.
